EXCLUSIVE “LIVING SPACES”

- ✓ 99 rooms und 26 suites

When fitting out the 125 rooms and suites, individuality was the watchword. They are furnished in the most varied styles, but always with great taste and a love of detail. So you can choose between elegant Provencal and English country house style, modern design or rustic Tyrolean ambience. The “Surprise” junior suites and two luxury Penthouse Suites have breath-taking views to the south over the Naderkogel and have the finest interior fittings. For their furnishings, materials from Etro, Nobilis, Lizzo and others were used, as well as various noble timbers such as European walnut, hand-planed oak, matured ancient timber and bamboo.

In selected suites there are refinements like open fires, glass bath tubs and bamboo floors. Even the dimensions are 5-star: up to three metre high bed canopies (some including coloured light therapy) or five metre high living rooms give more than enough space for the finest living. Warm colours, parquet floors, flat-screen TV's or marble baths are just a few of the other exclusive “ingredients” of a stylish holiday at the Central. New, 200 m² large and luxurious Presidential Suite in chalet-style with private whirlpool, sauna and steam bath plus own fitness area.

This sensual culinary voyage through the day starts with a 5-star breakfast and ends with a 5-course gourmet dinner in the evening, whiling away an atmospheric evening with some of the best wines in the world.

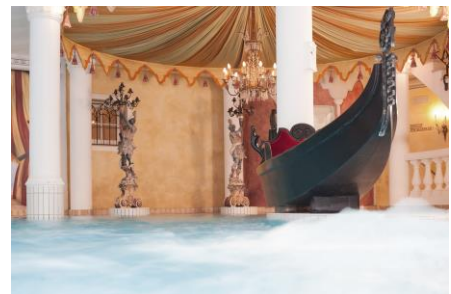

All that is enhanced by quality wines from the very best regions from around the world. These noble drops have been personally selected by the hotel's sommelier and "Falstaff-Maitre 2005" Martin Sperdin, and stored in a cellar which also provides the ideal setting for evening wine tastings. Over 30,000 bottles of fine wine from all over the world are stored in the vaults of this legendary wine cellar! Our wine philosophy focuses on wines from Austria. Particularly great importance is attached to ensuring that the wines offered to guests on the very extensive wine menu (452 different wines) have first matured properly, which means that one largely finds wines aged up to 5 years and over. The cellar, located at 1,370 m above sea-level, houses the country's largest range of top Austrian wines.
